## About Me

I am highly motivated with a passion for technology and innovation. I have a strong foundation in programming languages and databases. I am also proficient in a variety of software development tools and version control systems (GIT).

In addition, I am able to work independently and as part of a team to achieve common goals.

I am eager to learn new things and I am always looking for ways to improve my skills. I am confident that I have the skills and knowledge necessary to be a valuable asset to your team.

## Education

**BS in Information System**
2014-2015
*TECHNOLOGICAL UNIVERSITY OF THE PHILIPPINES*

## Awards and Honors

**Created a Hotel Management System using C++**

**Developed a game software with a team called Board Mania using C language and Raylib library**

**Created an ATM Simulation in C++ using ADT LIST Operations in ARRAY or LINK LIST implementation**

**Developed a File Compression and Decompression (for text files only) using the Huffman Algorithm ( C++)**

**Create a project called E-Voting System using Python Language**
